

PYP 6 Student Taking Action Proposal

1. Background

We would like to propose an action of sharing our basic P.E.- math skills (area) and giving equipment/ resources to SDN Kalitengah II Lamongan.

We believe this proposed action will meet our central idea “Accepting Social Responsibility can contribute Towards a Sustainable Future” and our lines of inquiry because by doing this action we can understand more how far poverty affects people’s life, especially in terms of education. Then, we decide on taking action to overcome this issue as our responsibility to other people and community. We also think that it is also a sustainable action for the school we help so they can later on use the equipment and skills to better the education happening there. If we improve the quality of education, we can help minimize the impacts of poverty and slow down the growth of poverty in the future.

To carry out this action, we will need to practice the profiles of communicator, thinker, balance, caring, risk taker, open-minded; attitudes of confidence, cooperation, empathy, enthusiasm, respect, independence and use our skills of communication, self management and social.

2. Description of The Action

- Name of activity:
Teaching basic Math and P.E. skills-providing resources to a school
- Location:
Kabupaten Lamongan, Kecamatan Sugiyo
- Date and Time:
Friday 6th February 2009 at 8:30 am

5.	Donate the stationary	Niko, Jon, Andreas , Ms. Luluk	

- **Budget**

Purposes	Amount of Money
1. Purchasing math resources (100 cm wooden ruler)	3 x Rp 15.000,00 = Rp 45.000,00
2. Purchasing math resources (protractor)	3 x Rp 25.000,00 = Rp 75.000,00
3. Purchasing math resources (compass)	3 x Rp 30.000,00 = Rp 90.000,00
4. Purchasing P.E. resources (soccer ball)	3 x Rp 25.000,00 = Rp 75.000,00
Total	Rp 285.000,00

- **Our contribution to the Community:**

1. By giving them math resources to the school, both the teachers and the students can use the resources to make their learning process better.
2. By giving students knowledge on math's lesson especially area and perimeter of the circle students can experience different learning engagement.
3. By giving students knowledge on physical education skills especially in ball activities students can experience different types of sport activities

- **Contact Person:**

Niko's Father (Sudjito)
 Phone Number: 77729777, 70982777, 0811300332
 Address: International Village II H-5 No.17
