The International Baccalaureate® (IB) is currently seeking an experienced individual to take on the role of Deputy Examiner Responsible for its Food Science and Technology course.

The International Baccalaureate® (IB) is a non-profit educational foundation offering challenging programmes for a worldwide community of schools. It is now represented in over 150 countries and in over 5,000 schools. The IB provides an international pre-university curriculum and an international university entry qualification, which gives access to higher education on a worldwide basis. You may be interested to visit the public website at www.ibo.org for more details.

The IB’s Food Science and Technology course is for students aged 16-18 and will teach students about key aspects of food science and technology including nutritional science, food processing, safety and quality, and food related issues with impact on society. An understanding of food is increasingly crucial to individual and societal well-being. The world faces challenges in terms of food production, nutritional well-being, food safety and quality. As a major global industry, the food industry has to respond to consumers who increasingly demand greater choice, convenience and safety, whilst aiming to develop and manufacture food products to meet the needs and wants of rapidly changing societies. The course requires the use of scientific methodology, gaining evidence from observation and/or experimentation.

This course is currently offered as a school-based syllabus. Further information about this type of course is available at: school-based syllabus.

The duties of Deputy Examiner Responsible include the setting and marking of examinations and may involve occasional (paid) travel to the IB Global Centre, Cardiff, UK.

Please note that this position is part-time, involves no relocation, and is usually undertaken in addition to existing work commitments. Examiners will be given clear instructions and be well supported throughout the process.

Outline information about this role, as well as the application form and recruitment policy can be found on the senior examiner section of our website.

We are seeking an experienced individual with the following background:

- Native / fluent speakers of English
- Qualified to at least degree level in Food Science and Technology or a related subject
- Teaching experience in Food Science and Technology or a related area
- Interest in working with a developing course
- Interest in working with a growing team of examiners
- Examining experience (desirable but not essential)

The IB is committed to developing international mindedness and an awareness of multiple perspectives. These are goals at the heart of this course as food technologists need an understanding of food science and its technological application, as well as imagination and creativity, to be able to develop new solutions to global needs.

We would be very keen to hear from all individuals with the above experience.

If you wish to apply, or would like further information, please contact the Examiner Training and Recruitment Department by email (examiners@ibo.org).
Deputy Examiner Responsible for Food Science Technology

ROLE PURPOSE
Deputy Examiners Responsible work closely with subject managers to provide effective, reliable and continuous leadership of all assessment activities within a subject for the Diploma Programme. The role demands the commitment of an experienced education leader with a strong background in the required subject specialism.

TEAM STRUCTURE/ASSOCIATED PROCESSES
The position of Deputy Examiner Responsible entails a commitment to attend meetings for activities such as question paper editing, examiner standardization and grade awarding.
